EXPERIENCE

DigitalCrafts

Web Developer
Atlanta, Georgia
10/2015-Present

Developer in 16 week full stack immersive bootcamp. Spend 70 to 80 hours per week learning the latest front end technologies as well as the back end technologies that compliment them. Heavy emphasis placed on learning Javascript as well as Javascript frameworks. Work on projects on a daily basis that emphasize powerful, efficient code while at the same time showing an appreciation for aesthetic design. Learning to leverage the power of the online developer community to overcome coding challenges and to independently grow as a developer.

PRIOR EXPERIENCE

T3 Trading Group

Equities Trader
Atlanta, Georgia
11/2014-9/2015

Quickly reacted to market conditions to identify short term trading opportunities. Analyzed risk/reward of trades during periods of rapidly changing market dynamics. Made quick, quantitative decisions in an extremely stressful environment while being responsible for a portfolio of several hundred thousand dollars.
